

Stickman Institutional PD Solution Warmers

Model 770L

Specifications:

The single-chambered warming cabinet is constructed with 20 gauge stainless steel exterior casing and door. Window door and interior lighting allow observation of inventory with the door closed and convenient illumination when the door is open. The cabinet is warmed using the patented Halo Heat® low-heat-density electrothermal cable array. The cabinet is equipped with three (3) white, epoxy-coated wire baskets, each with a 14 liter capacity to accommodate most commonly used surgical fluids packaged in bags or bottles. The cabinet is furnished with a full-perimeter rubber bumper assembly and one (1) set of 5" (127mm) heavy duty casters — two with locking brake.

Special Information:

- Right-hand door swing is standard.
Left-hand door is available as a special order.
- Stacking combinations listed under Options and Accessories.
- When ordering a combination of units to stack:
 - 1.) Indicate top and bottom placement.
 - 2.) Order one set of stacking hardware.
 - 3.) Delete full perimeter bumper (44092) and casters (CS-24874 and CS-24875) from upper unit.

Control:

The chamber is controlled by one (1) electronic control which consists of a 4 digit L.E.D. display, on/off key, heat indicator L.E.D, increase and decrease keys, built-in lock-out feature and a series of prompt sequence indicators. Individual temperature controls for irrigation fluids (IRR) and injection fluids (INJ) allow for precise temperature settings and can be easily set to operate in Celsius or Fahrenheit. The IRR temperature may be adjusted from 90° to 150°F (32° to 66°C), and the INJ temperature can be adjusted from 90° to 110°F (32° to 43°C). An alarm will sound if temperature exceeds 10°F (6°C) over the set-point temperature. In the event of a power failure, the cabinet will remember its programming and begin to operate as before. A warming shut-off system, separate from the electronic control, is an additional safety feature.

Capacity and Weights

Interior Capacity:	42 liters
Net Weight:	248 lb (112 kg)
Ship Weight:	325 lb (147 kg)

Electrical

120 V.A.C. 50/60 Hz, 1ph 1100 Watts, 9.0 Amps		NEMA 5-15P 15A - 125V Plug Hospital Grade	
230 V.A.C. 50/60 Hz, 1ph 1000 Watts, 4.5 Amps		BS 1363 Plug (UK only)	
		CEE 7/7 220-230V Plug

LIMITED WARRANTY

The manufacturer, Enthermics Medical Systems, warrants to the original purchaser that any original part that is found defective in material or workmanship will, at our option, subject to provisions hereinafter stated, be replaced with a new or rebuilt part. The labor warranty remains in effect one (1) year from installation or fifteen (15) months from the shipping date, whichever occurs first. The parts warranty remains in effect three years from installation or thirty-nine (39) months from the shipping date, whichever occurs first. This warranty does not apply to:

1. Calibration
2. Equipment damage caused by accident, shipping, improper installation or alteration.
3. Equipment used under conditions of abuse, misuse, carelessness, or abnormal conditions.
4. Any losses or damage resulting from malfunction, including loss of contents or consequential or incidental damages of any kind.
5. Equipment modified in any manner from original model, substitution of parts other than factory authorized parts, removal of any parts including legs, or addition of any parts.

This warranty is exclusive and is in lieu of all other warranties, expressed or implied, including the implied warranties of merchantability and fitness for purpose. In no event shall the Company be liable for loss of use, loss of revenue, or loss of contents or revenue, or for indirect or consequential damages. Enthermics Medical Systems neither assumes nor authorizes any persons to assume for it any other obligation or liability in connection with Enthermics Medical Systems equipment.
